

*You are cordially invited to a very special small group seminar with Steve Lewit...*

## BEAR MARKET INVESTMENT STRATEGIES

We all know a bear market is coming. The question is when and what to do about it!

### Why This Special Seminar?

New research provides methodologies for investing in bear markets which reduce downside risk and increase potential gain. At this, intimate, small group seminar, **limited to 12 attendees only**, Steve Lewit will give you new and refreshing ideas, and answer your questions, of how to invest when facing a high likelihood that a bear market is just around the corner. Topics Steve will cover:

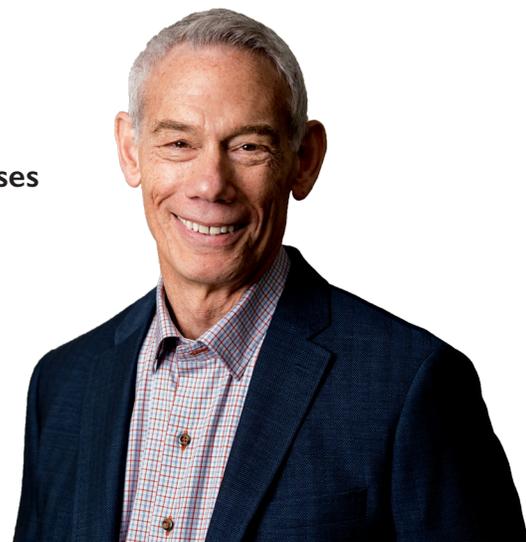

- **Is a bear market coming** sooner, later, or at all?
- Why sitting in cash, waiting for the market to drop, is a **bad move**.
- How **modern portfolios** build in a bear market **hedging strategy**.
- New Dollar-Cost-Averaging Strategies and how they can **mathematically ensure** superior investment results.
- Why moving to a very conservative portfolio **may not be your wisest** bear market strategy.

### Who Should Attend?

- You believe that a **bear market is coming**.
- You don't want to **suffer losses** again like you did in 2000 and 2008.
- Even though you know the market will come back, losing money **stresses you out**, or you don't have the **time to wait** to recoup your losses.
- Your investable assets are **\$500,000** or more.

### Why a Small Group?

Steve wants to be able to have more time with each attendee, so he is limiting the number of attendees to 12. This will give each person the chance to comment, ask questions, and get the personal attention that Steve believes will make the seminar that much more valuable.

Steve Lewit, President & Co-Founder

Space is limited, to reserve your spot, please call Joe at 847-499-3773

**Saturday, December 15<sup>th</sup>**  
**9:00 AM or 11:00 AM**
